

The Survey & Installation department of Kite Glass is dedicated to providing customers with a full site measure, templating and glass installation service.

Whether it be a small domestic project or a large commercial construction contract, Kite Glass prides itself on the high levels of attention, professionalism and expertise applied to each individual project.

Contracts are managed by the same team; from initial enquiry, through quotation and issuing of manufacturing instructions to installation and completion of the contract. This ensures that the person you speak to has a full understanding of the requirements of your project.
