

Kite Glass Case Study: Race Course Grandstand, Ascot

Processes included:

- Polishing
- Drilling
- Countersinking
- Toughening
- Heat Soaking
- Laminating
- Screen Printing
- Testing
- Installation

Summary:

Located just a few miles from Windsor Castle, Ascot is one of the leading racecourses in the UK and has strong links with the Royal Family. Kite Glass was delighted to be selected by five individual clients to supply glass for the prestigious race course grandstand.

The projects consisted of the design and installation of 3,000 panels of toughened glass for corporate boxes, internal stairs, balcony glazing, wall cladding and Brise Soleil. Deadlines for a race meeting 4 weeks before opening and Royal Ascot itself, which was attended by the Queen, were successfully met.
